Who are we?

MaCYSS is part of Alcohol Forum Ireland. We are a new team of skilled professionals who are enthusiastic and dedicated to providing the Monaghan & Cavan area with a service for Young People and their families who present with Alcohol and Other Drug (YAOD) concerns.

What do we do?

Using a Network approach and valuing a 'no wrong door' way of working we will;

- Provide professional and clinical intervention for Youth and their families concerned about Alcohol and Other Drug (YAOD 12-18yrs).

- Utilise the well-established expertise of organisations within the Cavan/ Monaghan area to achieve the best outcomes for Young People.

How do we do it?

- MaCYSS will provide clinical advice and professional support to workers, services in the Monaghan and Cavan area who engage with Young People and their families impacted by AOD use.

- Offer evidenced based Psycho-therapeutic interventions delivered via outreach and web-based secure platforms.

- Face to face, telephone and secure online consultations.

- Psychoeducational groups for Young People and Families.

- Offer a range of resources on topics related to Young People, Families on AOD.

- We listen to Young People and Families to help develop and improve what we do.

- Deliver AOD Education and awareness training programmes created with practitioners in mind to help those who support Young People and their families.

- We take referrals from Community, Voluntary and Statutory organisations working with Young People and families.

How to find us?

Young People are more likely to engage with a service if they are familiar with it or are supported by someone they know.

Your service may be the first point of contact for a Young Person seeking YAOD support and you can play a significant role in helping them.

Get in touch with MaCYSS to seek advice on how to support a Young Person or make a referral to MaCYSS YAOD service.
